Dear Ted,

The parents gave me another $1000.
I'd appreciate it if you could affix your signature to these and send them off when it is convenient. Thanks.

We have an underground bee-hive in our back yard. There's a hole which appears to descend at about a forty-five degree angle near the dead tree by the shed. Bees are flying in and out continually all day.

Dear Dave.

I just mailed off those forms in the Standard First Federal envelope you enclosed. Those "bees" — are you sure they're not hornets? I never heard of bees nesting underground, but one variety of yellowjackets does do so. If by any chance they really are bees — wait till the weather gets cold enough to immobilize them, then dig them out to get the honey!

Ted.
